

Here's What You Told Us...

Ewan Richards

Student

My highlights from working with the National Autism Team this year by being involved in the transition from school to college film with Coleg Sir Gar as well as being asked to deliver a presentation with lots of new resources regarding the benefit of the film and the support I receive, as well as support methods used within the college.

I believe my work with the National Autism Team has helped make a change to the lives of the people I've worked with this year by making them feel comfortable about going to college and informing them about the support they could receive, and hopefully it has made them want to speak up about living with Autism.

Also, whilst doing an autism stall at the college to make staff and students aware of what autism is and that people with autism are no different to anyone else.
