

# I GET BEATEN TO A PULP EVERY DAY

Tourette's hurts.  
Experiencing constant agony from hundreds of  
involuntary tics every single day feels like a brutal  
attack on your body. And with over 300,000  
people in the UK living with the condition, it's  
much more widespread than you might think.

Learn more and help ease the pain at  
[tourettes-action.org.uk](http://tourettes-action.org.uk)
